

Important questions you should ask your existing landlord insurance provider

Owning an investment property should be a rewarding experience but tenant trouble or plain bad luck can turn it into a drama if you don't have the right insurance cover. Comparing insurance policies is not a straightforward process as there are many differences in the type and extent of cover offered as well as the premium.

EBM Insurance Brokers created the RentCover range of products to help protect residential investment properties against damage and rent loss. Competitively priced and broad in cover, RentCover policies allow you to relax and let your investment earn money.

We know all the 'ins' and 'outs' of investment properties, and when you make a claim our team will ensure that you get prompt, personal attention. Most claims are settled within five days. It is imperative that you make an informed decision therefore we have highlighted just some of the features of EBM's RentCover Insurance for you to compare.

The RentCover range of landlord products. Protecting owners for over 20 years.

Without question this range of products are rated among the most comprehensive policies of their type throughout Australia. Insurance policies however are never easy to compare and there is more to it than simply comparing product features. Other considerations include:

- the length of time taken to settle claims (most RentCover claims are settled within 5 working days).
- excesses – the amount you must contribute towards a claim (some policies have an excess of as much as 4 weeks rent on the simplest claims).

Feature by feature however RentCover offers exceptional cover, as the table below will indicate.
